

## Week0:

I will share some content with you which helped me a lot when I was in this session.

Udemy course will help you better understand everything we taught in sessions. As we start JavaScript already, it only will be more confusing from now on. JavaScript is easier than other languages, but it is still a difficult journey for beginners.

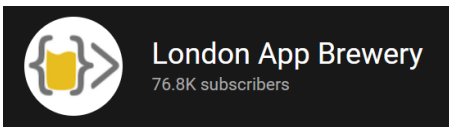

I learned JavaScript so many times and still cannot get it all, but every time I go through it, I will get some content clearer than before. And it is all thanks to Angela.

When I forget certain content, I will go back to Angela (it's like a dictionary to me), and I can easily pick it up again.

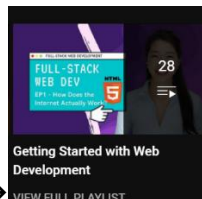

### Why it is worth it:

I used to find tutorials on YouTube, it is time-consuming (hard to find what I want/after watching it, not helping) and some content is out of date. And ADs.

Before you purchase, please check their YouTube channels:

choose →

Either Angela or Colt, they are both good, one is enough. ★★★★★

### How to use Udemy with our course:

There is a lot of content in the Udemy course, do not waste too much time on the topic we are not included in our sessions. They are important but the priority for you guys is to follow our slides and exercise. The structure of our session is well designed, and it covers the core technology that you needed for Job ready.

When you feel confused or not clear, use the Udemy course to help you.

e.g. Loops. Go to Udemy to find loop related tutorial, after you get it, come back to our slides.

	<b>The Web Developer Bootcamp 2022</b> COMPLETELY REDONE - The only course you need to learn web development - HTML, CSS, JS, Node, and More! Colt Steele 4.7 ★★★★★ (235,197) 64 total hours • 615 lectures • All Levels	<b>\$9.99</b> <del>\$84.99</del>
	<b>The Complete 2022 Web Development Bootcamp</b> Become a Full-Stack Web Developer with just ONE course. HTML, CSS, Javascript, Node, React, MongoDB, Web3 and DApps Dr. Angela Yu 4.7 ★★★★★ (191,230) 65.5 total hours • 490 lectures • All Levels <b>Bestseller</b>	<b>\$9.99</b> <del>\$84.99</del>

And for JavaScript-only: choose Jonas ★ ★ ★

He explains JavaScript a lot deeper, it is good but also can easily confuse you more. Save is as watch it later.

### Build Responsive Real-World Websites with HTML and CSS

Learn modern HTML5, CSS3 and web design by building a stunning website for your portfolio!  
Includes flexbox and CSS Grid
